

SELMA HYDRAULIC UTILITY TRAILER

2/6/09

Selma Hydraulic Trailers built by Jacobsen Trailer, Inc. eliminates manual lifting and the multiple handling and special lifting equipment. Not only minimizes the chances of load damage, but keeps your investment working at maximum regardless of your size operation. The trailer pays for itself in time and money savings.

The Selma Hydraulic LOWERS hydraulically by one person with standard 12 volt Electric over Hydraulic Pump. The Selma Hydraulic Trailer Lowers to the Ground within seconds for easy unloading, raises to travel height within seconds. Eliminates the need of extra labor and allows just one person to load and unload the trailer hydraulically.
